

Description

D2L-GB2 is a floor distributor for GB2 systems. It has 2 outputs for the monitors or telephones from GB2 system and 2 connection terminals for the BUS-in and BUS-out wiring.

GB2 is a pure 2 wires solution, the perfect system for villas and medium size buildings up to 22 apartments*. The system is very convenient for retrofit, thanks to its full digital transmission of audio, video and data. The system's wiring is not polarized, becoming GB2 an easy-to-install intercom solution. Reach its maximum performance using RAP-2150 cable.

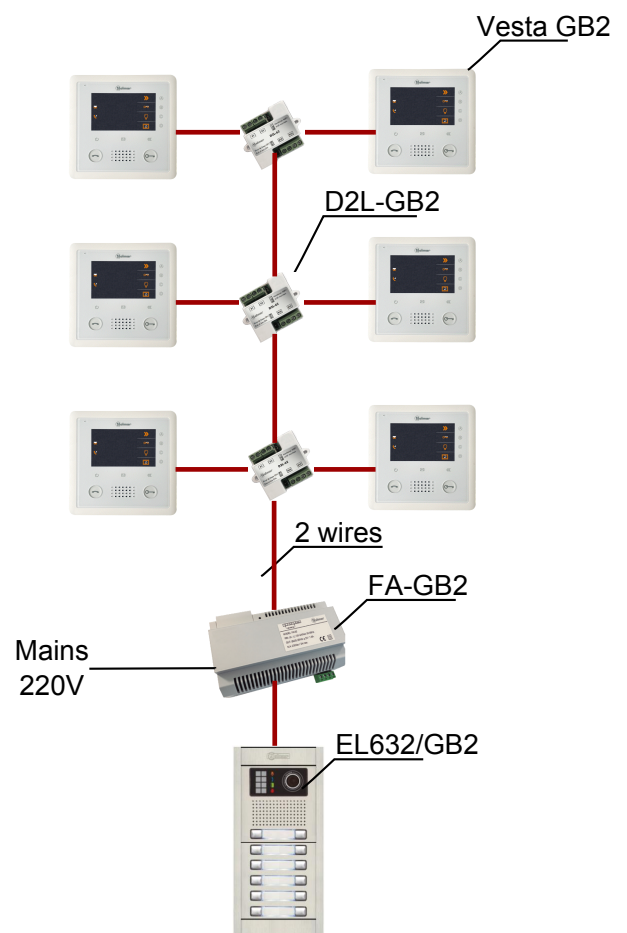

Dimensions: 45 (W) 45 (H) 17 (D) mm

Features

- Encapsulated in a small box, designed for retrofit.
- End line resistor for line impedance balancing.
- 2 distributed outputs.
